

Hush Acoustics - Absorber Panels

HUSH ABSORBER 30

Designed to eliminate echoes and sound reverberation, Hush can provide acoustic absorbers in a variety of stylish finishes. Whilst creating a tailored interior design, the acoustic absorber will provide a practical and efficient way of dampening sound reverberation within rooms, halls, corridors and virtually any other internal space.

The Hush Absorber 30 is a Class C Absorber that works using specially formulated 30mm thick acoustic foam and is hand finished with interior fabric applied to the face, edges and back return.

ACOUSTIC PERFORMANCE
